HARROLD'S - GARDENER

FRUITS, BERRIES, TREES and ORNAMENTAL SHRUBS — SPRING 1945

HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 — GRANTS PASS, OREGON.

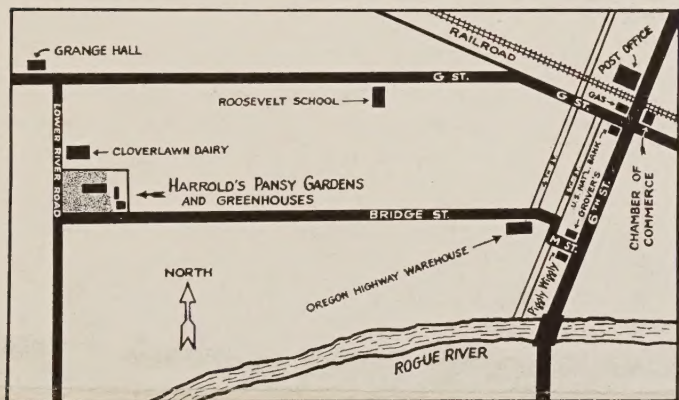

HARDY MATERIAL FOR EARLY PLANTING

In this folder you will find an extensive listing of the hardy portion of our stock that can be set any time now; in fact should be planted between now and the end of April. A few of the items offered can be set later but too late a planting date is not advisable.

GOOD STOCK IS SCARCE THIS YEAR SO ORDER EARLY: We suggest early ordering because there is a very definite shortage of GOOD nursery stock this season, especially in fruits and berries. We have been able to assemble a much better stock than we expected to be able to and because of a wide acquaintance in the wholesale trade and more than forty years experience we have been able to maintain a very high quality standard. A few varieties have had to be omitted either because they were entirely unobtainable or they could not be procured in satisfactory quality that we would care to send out to you. On going to press we list all the varieties we know we shall have so please don't order varieties not listed.

ANOTHER FOLDER WILL BE PUBLISHED LATER: This will cover our extensive line of vegetable plants and a vast selection of decorative flowering plants for beautifying your garden and home. As in past years we will supply the most varied and complete line of this material to be had in this part of the country. Another Harrold service, as in past years, will be continuation of our mail delivery service. **OUR GARDENS ARE JUST AS ACCESSIBLE TO YOU AS YOUR OWN MAIL BOX.** Conserve gas and tires by letting us serve you by mail when possible.

How to reach Harrold's

VISIT THE GARDENS WHICH ARE OPEN ON WEEK DAYS FROM 10:00 A. M. UNTIL 7:00 P. M. UNTIL JUNE 1st. OPEN SUNDAYS BETWEEN 12:00 NOON AND 6:00 P. M. Limited experienced help makes adherence to this schedule absolutely necessary and we will appreciate your co-operation.

A PROFESSIONAL NURSERY IS YOUR BEST INSURANCE OF VALUE

The value of nursery stock can not be entirely measured in dollars and cents and it is very doubtful economy when this is given first consideration. **FAR MORE IMPORTANT** is the experience and integrity of your nurseryman and whether he can be relied on to supply varieties best suited to your needs and growing conditions. Also how he handles the trees or plants before you receive them. Such a nurseryman can be your best insurance of both value and satisfaction because he **IS A NURSERYMAN** and not just a merchandiser; he has a better service that can be of real value to you.

In recent years there has been wide spread sale of nursery stock both by merchandisers with **NO HORTICULTURAL** background as well as stores **WITH NO PROPER FACILITIES** to properly care for this type of material. It is stocked and sold as you would non-perishable commodities which it certainly **IS NOT**. Such trees and plants are subjected for days, sometimes weeks, to the unnatural dry hot atmosphere of a store, resulting in dehydration of the stems and roots. As compared with stock handled in natural environments that is lifted freshly from the earth for delivery to you do you think it reasonable that you receive as much value?

We, along with most other professional nurserymen maintain **ALL** material under **NATURAL CONDITIONS — IN THE EARTH AND PROPERLY MOIST** until it is delivered to you. We pack or wrap in a manner to maintain that condition a reasonable time until you can plant it. Handling this way costs a little more and is a lot more work but it is your **MOST IMPORTANT** assurance of success and satisfaction. **BUY QUALITY AND VALUE FOR ECONOMY.**

ORDERING BY MAIL

OUR SERVICE IS AS NEAR AS YOUR OWN MAIL BOX.

While the prices quoted herein are for delivery at the nursery it will be noted that at the bottom of each group packing and shipping conditions will be given. This information will tell you how each group will be handled when we make shipment of mail orders and in this way it is possible to have this material come to you in the most convenient way. We are unable to apply a uniform rule to the stock listed in this folder owing to the great variation in size and weight of this kind of material. You will find, however, that our service is economical.

Smallest Mail Order Accepted \$1.50

Fruit Trees

ALL OF OUR STOCK IS NORTHWEST GROWN AND ACCLIMATED. We make a specialty of this type of quality stock because we know it is best adapted to planting here and that it is the soundest value for you. This stock is used to our mineral soils and does not sustain a serious setback when planted. It also is not subjected to unnatural conditions of fumigation often made mandatory when bringing nursery stock into this section from growers east of the mountains. These are points which all have a bearing on the value of the material you buy and its ability to grow for you satisfactorily. It is only that we have had many years active participation in this industry and the best of connections with propagating specialists that we have been able to maintain this quality in these times of scarcity and shortage. We pledge you our continued effort to maintain quality.

Due to scarcity of good quality stock this year we can offer only one size in most varieties. In fruit we can not fill in additional stock other than what we now have on hand or booked with our growers so for that reason it is most advisable that we have your order soon after you receive this offer. When it will not inconvenience you it may assure complete filling of your order if a second choice is given in case some items may be sold out. You may always be sure though, that on fruit stock and large ornamentals your instructions will be carefully followed.

This year we will have limited quantities of some stock not listed here and in ornamentals it is possible to obtain some varieties on special order. In these cases, however, we can only consider such orders when made personally at the nursery. In ordering by mail therefore, do not order varieties not listed unless you first write asking about availability and price.

APPLE TREES

VARIETY	Season	Description	Price Each
RED ASTRACHAN:	(July - Aug.)	An early red of quality. 2 year.	\$1.20
BALDWIN:	(Dec - Mar.)	Fruit round, large deep red. 3 year.	1.50

APRICOT TREES

MOORPARK:	(Yakima)	(July) Fine large orange, red cheek. 2 year heavy	\$2.00
		1 year.	1.50
PERFECTION: NEW.	(July)	The largest apricot. Often 2 1/2 inches in diameter. Hardy growth, good quality. Highly recommended. 2 year.	2.00
		1 year.	1.50
ROYAL:	(June)	Commercial canning & drying. Good quality. 2 year.	2.00
		1 year.	1.50
TILTON:	(July)	Canning, drying and shipping. Hardy. 2 year.	2.00

SWEET CHERRIES

NOTE: Sweet Cherries should be planted two or more varieties together for proper pollenization. Black Republican or Tartarian are best for pollenizers but where space is limited almost any combination of varieties will be suitable for home orchard setting.

Our Royal Ann and Bings are top budded on four foot understock trunk with three to four strong year old buds making a beautifully shaped tree which will develop and bear quicker than stock of these usually offered.

VARIETY	Season	Description	Price Each
BING:	(Mid-season)	Very large dark red & sweet. Recommended. 3 year.	\$2.00
BLACK REPUBLICAN:	(Late)	Medium size, almost black. Very sweet and of good flavor. A good pollenizer for other varieties. 2 year.	1.80
BLACK TARTARIAN:	(Late)	Dark purple. Medium large, rich and juicy. Certified pollenizer. 2 year.	1.80
ROYAL ANN:	(July)	Large pale yellow, blushed cheek. Fine canner. 3 year.	2.00

SOUR or PIE CHERRIES

NOTE: These are self pollenizing so may be set by themselves. Are not suitable as a pollenizer for sweet cherries.

VARIETY	Season	Description	Price Each
EARLY RICHMOND:	(Early)	Medium size dark red. Good canner. 2 year.	\$1.80
ENGLISH MORELLO:	(Late)	Dark red & very sour. Fine for pies. 2 year.	1.80
MAY DUKE:	(Early)	Medium large. A fine canner. Very hardy. 2 year.	1.50
MONTMORENCY:	(Mid-season)	Commercial canner. Very good. 2 year.	1.50

FIGS

BROWN TURKEY:	Rich purplish-brown, flesh red. Sweet and hardy.	\$2.00
KING FIG:	An extremely large hardy fig. Bears quickly and fruit is often as large as small pears. Good flavor. This fig will thrive in localities where others will not.	
	1 year trees, often bears figs the year following planting.	4.50
	2 year trees branched. Have produced fruit 5 months after planting.	10.00
	These King Figs come direct to you from the originator and prices include transportation. Planting instructions included. Order from us early.	
LATTARULA:	A very hardy fig which can be depended on to give a crop in the colder locations. Luscious flavor.	2.50
WHITE ADRIATIC:	A leading dryer. Good fresh. Skin white, reddish pulp.	2.00

PEACH TREES

All varieties in this first group are freestone of the highest quality

VARIETY	Season	Description	Price Each
CHAMPION:	(Aug.)	Large white fleshed of excellent flavor. Hardy & productive. A nice home variety.	1 year. \$1.20 2 year. 2.00
ELBERTA EARLY:	(Aug - Sept.)	Golden yellow. Excellent quality. One of the finest early canners of quality.	1 year. 1.20 2 year. 2.00
ELBERTA IMPROVED:	(Sept)	A standard canning peach that thrives under almost any condition. Very hardy.	1 year. 1.20
GOLDEN JUBILEE:	(July.)	The earliest quality yellow. One to two weeks earlier than Rochester.	1 year. 1.20 2 year. 2.00
HALE HAVEN:	(Aug - Sept.)	Vigorous and well colored. A fine market sort because of its fine coloring and flavor. Golden yellow and completely free stone. You'll like this one.	1 year. 1.20
J. H. HALE:	(Sept.)	Larger and about 2 to 3 weeks later than Elberta. A very popular home canning and commercial sort. Almost a must.	1 year. 1.20
ROCHESTER:	(July - Aug.)	Early and very fine along the coast. Deep yellow of fine flavor and texture. Excellent canner.	1 year. 1.20
SALWAY:	(Sept - Oct.)	A large yellow for the end of the season. Quality is fine and a variety needed to extend the season.	1 year. 1.20

The cling stone varieties listed here are outstanding in quality and we believe them to be the best available for pickling and canning.

MAYFLOWER:	(June - July.)	Medium size red with cream flesh. The earliest peach to ripen. fine for table or pickles.	1 year. 1.20
------------	----------------	---	--------------

PEACH TREES Continued

VARIETY	Season	Description	Price Each
ORANGE CLING:	(Aug.)	One of the best canners. Used heavily in Calif. as a commercial canner. Deep yellow color and mild flavor.	1 year. 1.20 2 year. 2.00
		Like most clings these are firm and of good texture after processing.	
PALORO:	(Aug.)	A very fine mid-season canning cling of outstanding quality. You'll like this one.	1 year. 1.30
SULLIVAN:	Pat. No. 186. (Aug - Sept.)	Replacing and an improvement over the well known Phillips. Highly recommended.	1 year. 1.40
		Clings are not hard to stone if you use a regular stoning knife obtainable from most hardware dealers.	
NO PEACHES SOLD OUTSIDE OF OREGON. Recent quarantine regulations have so unsettled delivery conditions that we will not ship peach stock outside this State.			

PEAR TREES

VARIETY	Season	Description	Price Each
BARTLETT:	(Aug - Sept.)	The most popular home pear. Fine canner. 2 year.	\$1.20
BOSC:	(Sept - Oct.)	Large and good flavored russet.	2 year. 1.20
COMICE:	(Oct - Dec.)	Very large and of fine quality. The pear that is best during the holidays.	2 year. 1.25
D' ANJOU:	(Oct - Jan.)	Large yellow flecked russet. Good flavor and an excellent keeper.	3 year. 1.75
FLEMISH BEAUTY:	(Sept - Oct.)	Very hardy and productive. Medium large and a handsome fruit of fine flavor. A good marketer.	2 year. 1.20
SECKEL:	(Oct - Nov.)	Small to medium russet with red cheek. Very fine for cooking and pickling.	2 year. 1.20
WINTER BARTLETT:	(Sept - Oct.)	A late canner and fair keeper.	2 year. 1.20 3 year. 2.00
WINTER NELLIS:	(Nov - Jan.)	The latest keeper. Small size but well flavored. Russet over yellow. Fine for butters.	4 year. 2.00

PLUM TREES

VARIETY	Season	Description	Price Each
BLUE DAMSON:	(Aug.)	Deep purple, yellow flesh. Fine canner. 2 year.	\$1.20
BURBANK:	(Mid-June)	Cherry red over yellow. Flesh yellow. Good. 2 year.	1.20
CLIMAX:	(Early June)	Good large deep red, yellow flesh. 2 year.	1.20
GREEN GAGE:	(Mid-July.)	Small yellowish green. Cans & preserves. 2 year.	1.20
PEACH:	(July)	Large purple-red, golden flesh. Freestone. 2 year old.	1.20
SANTA ROSA:	(Mid-June.)	Dark crimson. Delicious yellow flesh. 2 year.	1.20

PRUNE TREES

DATE:	Coates 1418. Large purple. Fine fresh, canned or dried.	2 year. 1.30
FRENCH PETITE:	Medium sized for drying. Rich, sweet & sugary.	2 year. 1.30
IMPERIAL:	A very large prune of grand quality. Medium early.	2 year. 1.30
ITALIAN:	One of the best known. Widely planted. Large purple.	2 year. 1.20
EARLY ITALIAN:	The same as Italian but about 3 weeks earlier.	2 year. 1.30
SILVER:	Late ripening. Golden yellow. Rich & sweet.	3 year. 1.50

QUINCE TREES

ORANGE:	(Mid-season)	Large fruit of bright yellow and good flavor.	3 year. 2.00
---------	--------------	---	--------------

NUT TREES

VARIETY	Season	Description	Price Each
ALMONDS:		A flavorful nut that grows well in milder sections of the northwest.	
NONPAREIL:		Best for home growing. Paper shelled & prolific. 4-6ft.	\$1.20
DRAKES SEEDLING:		A productive soft shell and fine pollenizer. 4-6ft.	1.30
I.X.L.:		Vigorous grower & prolific. Used as pollenizer for Nonpareil. 4-6ft	1.20
		Set two or more trees of different varieties for pollenization.	
CHESTNUT:		An excellent shade tree bearing delicious nuts.	
AMERICAN SWEET:		Hardy. Nuts medium sized and sweet. 5-6ft.	1.75
SPANISH:		Nuts very large. Tree globular. Handsome shade. 5-6ft.	1.75
		Set two or more trees of different varieties for pollenization.	
FILBERTS:		These are especially successful in the northwest.	
BARCELONA:		Large round nuts heavily produced. 3-4ft. headed.	1.20
DAVIANA:		A large type nut and a good pollenizer. 4-6ft.	1.50
DU CHILLY:		Large long nuts of superior quality. 3-4ft. headed.	1.20
		Set two or more trees of different varieties for pollenization.	
PECAN:		A splendid shade tree. Likes damp situations.	
HALBERT:		A thin shelled round nut of medium size. 4-5ft.	\$3.00
STUART:		Very hardy. Large nuts with fairly heavy shell. 4-5ft.	3.00
SUCCESS:		Soft shelled. Less hardy but suitable west of Mts. 4-5ft.	3.00
		Set two or more trees of different varieties for pollenization.	
WALNUTS:			
CALIFORNIA BLACK:		A fast growing variety. 6-8ft.	1.50
ENGLISH:		We are sorry that we have been unable to obtain reliable stock of these large enough for our customers. We hope to have good stock again next season.	

SHIPPING TREES

OUR FRUIT, NUT AND SHADE TREES are in most cases too large to be shipped by parcel post. Railway Express, Truck freight or Stage is recommended depending on where you live. If your shipment amounts to \$50.00 or more we will pack and ship to points within 300 miles of Grants Pass free of additional charge. Shipments of \$25.00 or more will be packed free and shipped transportation collect. On smaller shipments a charge of 50c will be made for packing and transport charges will be made collect.

SMALL FRUITS and BERRIES

ASPARAGUS ROOTS—This is the rust-resistant Mary Washington. Heavy 3 year old 40c per doz.; \$3.00 a 100 Strong 1 year old roots 20c per doz.; \$1.50 per 100.

PARADISE: A new variety coming into bearing early and heavily. A good one for freezing. Strong 1 year old roots 30c per doz.; \$2.50 per 100. Special price by the thousand on one year old roots

BLUEBERRIES— Sold only in units; One plant each of three varieties Price per unit \$5.00

A grand eatable berry and an ornamental shrub combined. Thrives in about the same situation as Azalea or Rhododendron— semi-shade and acid soil. They like a moist situation. Because it is necessary to have cross pollenization each unit has one husky plant each of **Rancocoas**-early and large; **Rubel**-mid-season, medium size and productive; **Grover**-A large late one. Berries are often an inch in diameter and are rich and luscious.

BOYSENBERRIES— A luscious sweet, juicy berry of wide popularity Husky transplants 20c each; \$2.00 per doz. \$16.00 per 100.

CURRENTS— Berries of fine flavor used for jellies. A garden "must" **HEAVY 2 year NO. 1 grade, 30c each; \$3.00 per doz.**

Cherry: Large red, mild flavor. Perfection: Bright red. Very prolific.

GOOSEBERRIES— **OREGON CHAMPION.** The finest most prolific large fruited sort. 2 year No. 1 grade, 30c ea; \$3.00 a doz.

GIANT ENGLISH SWEET: The berry on these is often an inch in diameter. We have seen 20 berries fill a pint jar. The sweetest gooseberry. 1 year No. 1 50c each; \$5.50 per dozen.

GRAPES: American— Commonly referred to as "slip skin" sorts. Price 35c each; 6 for \$1.75

Campbell's Early: Black. July. Niagara: White Concord. Sept.

Catawba: Red. Very distinctive flavor. Worden: Purple. Excellent flavor. Aug.

Concord: The standard black. Aug.

GRAPES: European— Usually referred to as "sweet table grapes" Price 35c each; 6 for \$1.75

Malaga: Yellowish green. Aug. Thompson Seedless: Sweet raisin.

Muscat: Pale amber. Sweet. Sept. Tokay: Flame red. Crisp & juicy. Oct.

Ribier: Extra large black. Sept. Zinfandel: Leading black wine grape.

HORSERADISH— A popular condiment for use on meats. Divisions 15c each; \$1.50 per doz.

LOGANBERRIES— A very well known dessert & canning berry. Price 20c each; \$2.00 per doz.; \$16.00 per 100

NECTARBERRIES— **NEW.** Similar to Boysenberry but MUCH better Price 40c each; 6 for \$2.00

From what we have now seen of Nectarberries we can recommend them without reservation. They are a MUST item for every home garden.

RASPBERRIES— An always popular berry that is hardy & prolific. Heavy 2 year 15c each; \$1.75 per doz.; \$14.50 per 100

Cumberland Blackcap: Best black. New Washington: Fine giant red.

Cuthbert: Very popular red. Taylor: Very hardy large red.

Logan Blackcap: Prolific large black.

St Regis: A medium sized red. Almost everbearing. Fine for home gardens.

RHUBARB— (Pie Plant) A very popular garden plant that is easily grown. Large crown divisions, 20c each; \$2.00 per doz.

Riverside Giant: Very large stalks. Strawberry: Small all red stalks.

Two year old whole young roots 6 for 75c; \$10.00 per 100.

Flare: Small tender all red. Giant Red Victoria: Mammoth red.

STRAWBERRIES— A very popular group for the home garden. Easily grown and they do well in almost any garden soil.

ONE CROP OR CANNING VARIETIES

Banner: One of the finest main crop. Improved Oregon: A wonderful canner.

Corvallis: Sweet, firm and late. Marshall: A standard main crop sort.

Gold Dollar: The first to ripen. Red Heart: New. Very large.

This group 25 for \$1.00; 100 for \$3.00; 500 for \$12.50.

EVERBEARING VARIETIES

Gem: A fine summer & fall berry. Progressive: Medium sized & sweet.

Mastodon: Very large fruited.

These everbearers 25 for \$1.50; 100 for \$4.00; 500 for \$15.00

Rockhill: The runnerless everbearer. An ideal variety for the small garden. Berries are of large size and lusciously juicy

ROCKHILLS, 10 for \$1.50; 25 for \$3.50; 50 or more at 12¢ each.

YOUNGBERRIES— A luscious sweet berry. Fine for dessert or canning. Price 20c each; \$2.00 per doz.; \$16.00 per 100.

We do not supply quantities smaller than the smallest listed item. Six of a variety supplied at the dozen rate or 50 at the 100.

SHIPPING SMALL FRUITS AND BERRIES— If stock shipped from this group amounts to more than \$25.00 we will pack and deliver free within 300 miles of Grants Pass. At greater distance packing free transportation collect. On smaller shipments a charge of 30c will be made to cover packing and postage within 300 miles. At greater distance packing 30c and transport collect.

PRICES AND DELIVERIES

All offers and prices herein quoted are based on supplies now on hand or booked. In the event we run short and can fill in stocks later in the season having to pay a higher price than those on which these quotations are based, these prices are subject to market change without notice.

ORDERS FILLED IN STRICT ROTATION— We will fill all orders in the sequence of their arrival as long as stock is available to do so. In the event of exhaustion of an ordered item it will be omitted unless you make a second choice. This is advisable wherever possible for there certainly will be many shortages. **WE SUGGEST ORDERING NOW.**

SHADE TREES

We list in this group the more commonly used ornamental shade and flowering trees of the deciduous types—those that drop their leaves. All are excellent.

VARIETY	Description	Price Each
ASH: Green Ash.	Moderately fast growing. 6-8 ft.	\$1.60

Please Read Before Ordering

We grow a full line of vegetable and flowering plants and another catalogue covering these will be issued about April First. A copy will be supplied gladly.

NO WARRANTY: In common with general practice in the nursery and seed trade we do not in any manner guarantee the results or crop obtained from any material we send out. We use every care in growing and handling the material offered and endeavor at all times to supply stock true to name and description. In no case, however, will we assume a responsibility greater than the amount received as the original purchase price and if for any reason an adjustment is indicated we reserve the right to make such adjustments in the form of replacement in identical kind ordered or cash at our option.

PAYMENT: All mail orders MUST be accompanied by the full amount of the order in cash. This may be sent by postal money order or note, express money order, bank draft or personal check. WE WILL NOT ACCEPT POSTAGE STAMPS for any part of the remittance so please don't send them. Where orders are made at the gardens for items which may not be in stock a deposit of 25% of the amount of order will be required; returnable in the event delivery can't be made.
